

INTRODUCTION

Electro-chlorination System Overseas
SunRui Marine Environment Engineering Co.,Ltd

PAGE 1 / 4

Sunrui has been engaged in research and development of Electro-chlorination Industry for 30 years. In recent years, Sunrui has achieved excellent performance and obtained customer's recognition in international market.

In Indonesia, Sunrui cooperated with PLN (State Electric Company of Indonesia) for many years, and has supplied **33** sets of electro-chlorination systems for over 20 power plants, such as Morowali Tsingshan Industrial Park Coal-fired Power Plant, Tanjung Jati B Coal-fired Power Plant, Central Java Coal-fired Power Plant, etc. The total chlorination capacity in Indonesia is up to **6000Kg/h**.

In Turkey, Sunrui has designed, implemented and supplied **7** sets of electro-chlorination systems for different thermal power plants such as Zonguldak Eren Termik Santrali (ZETES) Power Station and BEKIRLI Power Plant. The total chlorination capacity in Turkey is more than **1000Kg/h**.

As well as in India and Philippines, **a dozen** of power plants are using the electro-chlorination systems of Sunrui. The total chlorination capacity in both India and Philippines is more than **1000Kg/h**.
